Now your Goldcard image (BIN) is create

**STEP 05:** Download HxD Hex Editor from [here](#)

And place your MicroSD Card in any Computer MicroSD Card reader (native or USB never mind)

**STEP 06:** Install and launch HxD Hex Editor program.

**NOTICE:** Make sure you use "**Run as Administrator**" under Vista and win 7

**STEP 07:** Go to Extra tab > Open Disk. Under Physical disk, select Removable Disk  
(Must be your SD card), uncheck "Open as Readonly, click OK

**STEP 08:** Go to Extra again, Open Disk Image, open up goldcard.BIN which you've saved earlier.  
Now, you should have two tabs, one is your removable disk, the other is goldcard.BIN.  
Press OK when prompted for "Sector Size" 512 (Hard disks/Floppy disks), click OK.

**STEP 09:** Click on goldcard.BIN tab. Go to Edit tab > Select All, edit tab again > copy.

**STEP 10:** Click on the "removable disk" tab. Select offset 00000000 till offset 00000170  
(including the 00000170 line), click on Edit tab and then Paste Write.

**STEP 11:** Click on File > Save. Now you can exit the program.

**STEP 12:** Reboot your phone with this SD Card (now GoldCard) inside.
